## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election with traverse of Group I, claims 1-6, 8-12 and 14-18 in the reply filed on April 19, 2007 is acknowledged. The traversal is on the ground(s) that it would not be a burden to search the apparatus and product along with the method. This is not found persuasive because the method limitations do not carry patentable weight in the apparatus and product, so the search and consideration is not the same.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 7, 13, 19, and 20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on April 19, 2007.

### *Double Patenting*

3. Claims 1-6, 8-12 and 14-18 of this application conflict with claims 1-6, 8-12 and 14-18 of Application No. 10/912,665. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.
